

# SCREAMER-X

STUDIO MICROPHONE FOR ALL-PURPOSE

*"The Screamer-X is a must have for the next generation of content creators, video editors, and artists. Its multiple microphone omnidirectional modes and easy to use USB plug and play design is tailored for streaming, interview and instrument recording."*

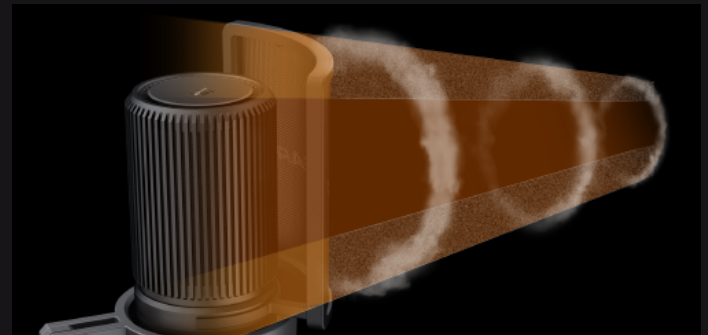

## Omnipotent Pick-up Microphones

Triple integrated 360-degree high-fidelity capsules receive a clear, mild, and neutral sound. Adjustable patterns accurately respond to the pick-up directions in a wide variety of applications.

## Environmental Noise Minimization

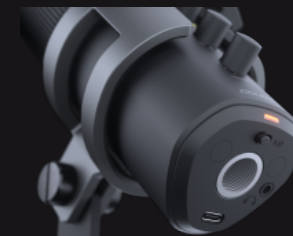

Double filters allow you to accurately capture your vocal contents without noise, such as wind, a blast of hard letters, like B's, P's, T's, and so on.

By switching on NR, Noise Reduction, with orange light, the algorithm will accurately pick up your vocal but filter the environmental noise.

## Diverse Pick-up Applications

Pattern Symbol	Pick-up Direction	Applications	Pattern Symbol	Pick-up Direction	Applications
		Streaming, Internet Telephony, Podcast			Interview, Vocal Duets, Instrument Recording
<b>CARDIOID</b>			<b>BI-DIRECTIONAL</b>		
		Voiceover, Solo Podcast, Gaming Streaming (Noise Reduction Switch Recommendation)			Multi-person Podcast, Conference, Instruction Recording
<b>SHOTGUN</b>			<b>OMNI-DIRECTIONAL</b>		

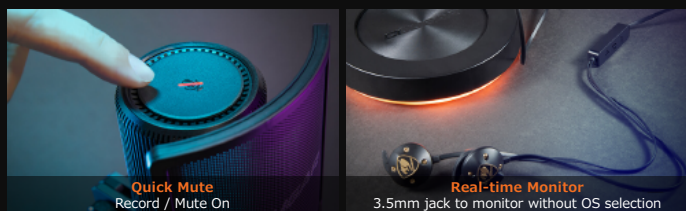

Note: The best reduction performance is in solo gaming streaming within 15cm distance, closed to the pop-filter.

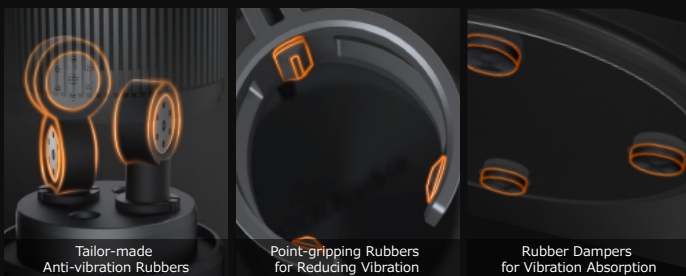

Exclusive dampers can mildly undermine the mild low frequency.

## Intuitive and Convenient Controls

## Multiple Anti-vibration Structure

## Mounting Hole for Universal Holder

Mounting hole with 3/8" to 5/8" screw adapter for hanger

Note: Microphone hanging holder is excluded.
