# New MasterGel Maker

Introducing our New Edition MasterGel Series, with our new exclusive flat-nozzle syringe design which enhances the user experience by making the application process as simple as possible. This new design eliminates the process of having to use a scraper and mess that comes with applying thermal grease. Apart from aesthetic design the thermal grease has been adjusted to match your performance needs with a range from regular to maker.

## Features

### Enhanced User Experience Design

Exclusively flat-nozzle syringe designed to enhance application experience

### Precise and Even

New flat-nozzle design allows for precise and even spread of your thermal grease

### High Conductivity to aid heat transfer

Range of thermal conductivity that will match cooling requirements and aid heat transfer from CPU/GPU to your cooler.

## Specifications & Packing Information

### New MasterGel Maker

Model	MGZ-NDSG-N15M-R2
Color	Grey
Thermal Conductivity (W/m-k)	11
Specific Gravity (g/cm <sup>3</sup> )(25°C)	2.6
Volume (ml)	1.5
Grease Cleaner	Yes

## Packing Information

### New MasterGel Maker

EAN code	4719512077764	
UPC code	884102050251	
Net weight (Kg)	0.012	
Gross weight (Kg)	0.06	
Carton dimension (L x W x H)	360 x 345 x 256 mm	
Cont. 20	W/Pallet	19200
	Carton/Pallet	48
Cont. 40	W/Pallet	40320
	Carton/Pallet	54
