

Introducing the EVGA SuperNOVA 1600 P+, the new and improved fully-modular power supply line-up from EVGA with an 80+ Platinum Efficiency rating. These power supplies pick up where the award-winning EVGA 1600 P2 and 1200 P2 power supplies left off and continue the tradition of EVGA quality and performance. Additionally, the SuperNOVA P+ power supplies feature a cleaner internal layout to increase airflow, a Variable Resistor module (to increase voltage stability), two DC to DC modules for more efficient power switching on all models, EVGA ECO Mode, a full suite of power supply protections, and EVGA's World-Leading Global 10-Year Warranty on all P+ power supplies.
