Keep your data safe and secure

Imagine losing your personal files, leaving them on a train or in the back of a taxi, knowing that anyone can access them because they were saved on a standard hard drive.

The Executive Fingerprint Secure Hard Drive uses a combination of AES 256-bit hardware encryption and biometric technology for complete information security, encased in a sleek aluminium enclosure.

The easy-to-use software allows up to eight users to enrol and save their fingerprints. Once setup, these users can lock and unlock the device just using their registered fingerprint.
