

SAVE IT IN A FLASH

BLAZE B07

More Power With USB 3.2 Gen 1

The Blaze B07 Type-A USB flash drive is equipped with a USB 3.2 Gen 1 interface for speedy data transfers. On top of that, with up to 256GB of storage capacity, you'll have more than enough space to take what you need with you.

JIS Z2801
Antibacterial Coating

Stores Data, Not Germs

Safety and hygiene are a top priority for the Blaze B07. A laboratory-certified antibacterial coating protects the drive and — most importantly — its users from germs. This is especially useful when sharing the drive with friends or with coworkers in an office environment.

USB Flash Drive Blaze B07

Features

- Super-speed data transfer with USB 3.2 Gen 1 interface
- Instant storage expansion up to 256GB capacity
- Laboratory-certified antibacterial coating protects the drive and its users from germs
- True Plug & Play Technology eliminates the need for external power
- Detachable cap protects the USB connector when not in use
- Built-in straphole design for easy attachment to keychains or bags
- Recuva File Recovery allows for recovery of erased files, such as digital photos, documents, songs, and videos
- Free SP Widget software available for download for backup & restore, AES 256-bit encryption, and cloud storage
